DR. SPINNEY

NO. 11 KEARNEY STREET,

San Francisco, Cal.

Treat all Chronic and Special Diseases

YOUNG MEN

WHO MAY BE SUFFERING FROM

the effects of youthful follies or in-

discretion, will do well to avail them-

selves of this, the greatest boon ever laid

at the altar of suffering humanity. DR.

SPINNEY will guarantee to forfeit \$500

for every case of Seminal weakness or

private disease of any kind or character

which he undertakes and fails to cure.

REDDLE-AGED MEN

There are many at the age of thirty and

sixty who are troubled with too frequent

evacuations of the bladder, often accom-

panied by a slight smarting or burning

sensation, and a weakening of the system

in a manner the patient cannot account

for. On examining the urinary deposits

aropy sediment will often be found, and

some small particles of albumen will ap-

pear, or the color will be of a thin milky

hue, again changing to a dark and torpid

appearance. There are many men who

die of this difficulty, ignorant of the cause,

which is the second stage of seminal

weakness. DR. S. will guarantee a perfect

cure in all such cases, and a healthy

restoration of the body and urinary organs.

Office Hours--10 to 4 and 8 to 10. Sun-

days from 10 to 11 a. m. Consultation

Free. Thorough examination and advice

given.

P. S. For private diseases of short

standing a full course of medicines suf-

ficient for a cure, with necessary instruc-

tions, will be sent to any address on re-

ceipt of Ten Dollars. Call or address

THE PEOPLE'S INTERESTS

It seems altogether likely that when the facts which are being forwarded to the department are considered, there will be no change in the number of United States land offices in Nevada. The question should not be put on the list of profit and loss items, like a custom house, but rather on that of necessities, like a postoffice. There is some consideration due to the settler who comes into a country like this and tries to make a home by redeeming a patch of the desert, and a wise and generous government will foster such a class instead of making it more difficult and expensive for them to secure their lands. If a poor man happened to homestead a quarter section of land on Steamboat creek and had lived on it for five years, he would feel it hard to have to pay his fare to Eureka and back to prove up his claim. The actual fare for himself and two witnesses there and back would be nearly \$175, not including sleeping car or hotel fares. It seems to us to be due from a rich and prosperous government like ours to a poor and struggling people like the settlers in Western Nevada that they should be spared this great burden. Two thirds of the people of Nevada live west of the Humboldt lake, and it is certain that such will be the case for many years to come. There is much water wasted, and much land that will be occupied in the next ten years by poor men. The bulk of the business in Eastern Nevada is from cattle men, who are constantly passing through to California, and if any office can be spared it is the one at Eureka. Still, we don't think either one should be. It is of great importance to our people that the State and United States land offices be near together. As it is now, if a man goes into the State office and selects a tract, the only thing necessary is to step over the street and have it reserved by the register. If the papers have to be sent to Eureka, some one may go in and take the land while the notice is on the way. Carson is the capital, and it is eminently fit that it should have a United States land office whether it pays expenses or not. Nevada has done enough for Uncle Sam to ask that much, and it will be almost slyly if it is refused.

EDITORIAL NOTES

It appears from statistics that there are in the world no less than 5,965 paper mills, producing yearly 959,000 tons of paper made from all kinds of substances, including grass, straw and alfalfa. About one-half the quantity is printed upon; and of these 476,000 tons, about 300,000 tons are used by newspapers. The various governments consume in official business, 100,000 tons; schools, 90,000 tons; commerce, 120,000; industry, 90,000 tons, and private correspondence another 90,000 tons. The paper trade employs 192,000 hands, including women and children.

A correspondent who has seen King Alfonso at Hamburg says that he is an insipid little creature, who is given to cigarettes and garlic. He loves to drive out behind fine horses and is evidently under the impression that people want to see him. As he drives through the parks he bows gallantly to all the pretty ladies who favor him with a glance. One of his body servants reports that the King is exceedingly fond of his brandy late at night.

It is said at Washington that the surplus revenue for the fiscal year will probably justify the department in issuing calls for \$45,000,000 more of the three per cents. The calls will average a little over \$6,000,000 a month through the Winter and Spring. It is also said that the treasury will pay out about \$75,000,000 in redemption of bonds during the remainder of the fiscal year.

NEEDS ATTENTION

It is the duty of the President of the United States to see that the laws of Congress are executed. When complaints are made that a law is being systematically violated it becomes the President's duty to ascertain the facts and if the complaints prove to be well founded to take measures to enforce the law. It is now many months since newspaper correspondents ascertained that the Chinese restriction law was habitually violated by many Chinese laborers, from British Columbia to Washington Territory. The official whose duty it is to prevent the infraction of law declares his inability to perform the duty with the force at his disposal. But the President does not seem to have given the matter a second thought. Victoria, according to one of its journals, has become a Chinese labor market, and the running of Chinese across the line a profitable business. When Mr. Arthur gets through with his Newport engagements it is hoped he will pay a little attention to the duties of his office.

Professor Joseph Le Conte sums up the conclusions of a paper on the "Genesis of Metalliferous Veins," which is based on the examination of phenomena of metalliferous deposit by solfataric action in Nevada and California, by saying that "subterranean waters of any kind, but especially alkaline, at any temperature, but mostly hot, circulating in any direction, but mainly up-coming, and in any kind of water-way, but mainly in open fissures, by deposit form metalliferous veins. It is evident, therefore, that the form, appearance, and mode of occurrence of veins must be infinitely various, but the mode of formation is substantially one."

EASTERN DISPATCHES

(PRESS DISPATCHES TO THE GAZETTE.)

Cancerous Beef Cattle.

CHICAGO, October 9. For some time past the Times, through its columns, has been exposing the inefficient inspecting of cattle and hogs at the stock yards, and advocating the inspection of stock of all kinds at the yards be placed under the control of the city health department of Chicago, with full authority to condemn. Heretofore the Chicago health department has had an officer at the yards, but his authority was next to nothing. To-day, at a meeting of the stock yard directors and officers of the town of Lake, it was agreed that the health commissioners of Chicago should have absolute control of the yards for inspection purposes, with authority to condemn cattle or other animals as he sees fit. The jurisdiction of the health commissioner is also extended over all packing and slaughtering houses situated in the town of Lake. Health officers were immediately stationed at each of the three gates of the stock yards, and all cattle entering are examined. The animals condemned during the day are placed in a separate pen, and in the evening of each day will be slaughtered. Five animals were thus killed last evening. The carcasses are turned over to the Union Rendering Company at the stock yards. The board was heartily approved of by the stockmen. Health commissioner Dewolf states that it is impossible to estimate the ill effects upon the people of Chicago caused by the number of cancerous beefs. The effects of eating the beef, says Dewolf, is septic fever, being a degree of blood poisoning very similar to fever from other causes; hence the inability of physicians to trace cancerous meat. Dewolf has no doubt but that a number of deaths have resulted from the consumption of this meat, sold without the knowledge of the health authorities.

The Election To-day.

CINCINNATI, October 9. In southern Ohio, the weather is mild and pleasant, and favorable to a full turnout of voters. So far as heard from here, the poll is the heaviest in the Republican wards. As to how it is going, no one can do more than guess. Women have appeared at the polling places, asking for votes for the second amendment. Ministers and prominent church members are also attending the polls for the same purpose. The Democratic tickets are printed with a note against this amendment. The Republican tickets are printed with "yes" and "no," and persons desiring to vote for it must erase. It is not thought the amendment will receive anything near a majority in this county, but will get a much larger vote than the prohibitionists usually poll.

CLEVELAND, Ohio, October 9.

A heavy vote had been polled at noon. The Democrats claim 4,000

majority in the city, and the Republicans concede 5,000. The Second Amendment workers are very active; they have headquarters at every ward except the third, and in most precincts the ladies industriously ply both tickets for votes for prohibition. Coffee and cake was served to whoever was thought to be favorable to the cause. Mrs. J. Ellen Foster of Iowa, the reputed author of the prohibition enactment in that State, is on the ground, going from ward to ward in a carriage, directing the temperance forces. Motives are profusely displayed at the second amendment headquarters, like "Betty and the Baby vs. Boodle and Beer," "Vote for the Second Amendment and down will go the saloons," "Vote for home and the babies," etc. The ladies wear badges with the State coat of arms, and an inscription of the second amendment. "For God and home and native land." A large majority against both amendments is probably here.

A Pork Commission.

WASHINGTON, Oct. 9.

The Secretary of State in behalf of the President, yesterday, addressed a letter to the Commissioner of Agriculture stating that inasmuch as certain foreign governments have charged that the hog products of the United States are affected with disease and not proper for export purposes, the President has decided to appoint a Commission to thoroughly investigate the curing of pork in this country, and has named as members of such Commission, Hon. Geo. B. Loring, Prof. C. F. Chandler, E. W. Blatchford, F. D. Curtis and Prof. E. D. Salmon. The President states he has no authority to guarantee the expenses of the Commission, but has no doubt that in view of the magnitude of the commercial interests involved, that Congress will meet all bills incurred for this purpose. The Commissioner of Agriculture is directed to summon his associates and proceed to work without delay.

WESTERN DISPATCHES

(PRESS DISPATCHES TO THE GAZETTE.)

Another World's Fair.

SAN FRANCISCO, October 9. The question of a World's Fair to be held here in 1897 is being mooted. At a preliminary gathering of a few citizens, a meeting was called to be held in the Chamber of Commerce in a few days, when the sense of the community at large will be taken.

A True Heroine.

The crew of the yellow fever steamer Newburn have been allowed to come ashore; they were all provided with new suits of clothes, and their old ones burned. Quarantine officer McAllister will continue to detain the vessel in quarantine until it has been thoroughly fumigated, so that as he states, when the Newburn goes back to Mexico there will be no chance of the steamer being the means of carrying back the disease to those cities which have already been so severely scourged. The nurse, Mrs. Ainslie, whom Dr. McAllister says has done the part of a heroine, was with her two convalescing patients, removed to the barge provided for them.

Importation Prohibited.

Information received, states that the Australian colonies have issued an order in council, prohibiting the importation of cattle, dead meats, etc., from several countries, among which, America is included. Mr. Creighton, the agent of the New Zealand Government in this city, says it was adopted as a precautionary measure, but that it will probably be modified by substituting quarantine regulations. The order, if maintained will prove a serious embarrassment to the trade in blooded stock, which was developed between New Zealand and California.

A Sensible View.

Alexander Webb, Treasurer of the National League at Dublin, has returned \$130 donated by the Hibernia Brewery, and Dr. Gibbons of this city, for the destitute families of the men executed for the Phoenix Park murders. The Treasurer writes, saying, to give the money donated, would be construed as sympathizing with the murderers and encouraging assassination.

Lake Tahoe Forests.

The Lake Tahoe Forestry Commission has resolved to ask the Central Pacific Railroad Company to withhold from sale, until after the meeting of the Legislature, the sections of railroad land in California, on the shores of Lake Tahoe. The Commission is anxious to preserve the forests as a place of attraction for tourists.

Samuel J. Randall, ex-Speaker of Congress.

delivered a short address to the Germans of Newark, New Jersey, yesterday, on the occasion of their centennial celebration.

Frederick M. Ker, the defaulting Cashier of Preston, Kane & Co.'s bank in Chicago.

who was recently brought from Peru, sets up the plea that he is a British subject and that he was kidnapped in Peru and brought back. Judge Drummond has not yet decided that point.

TELEGRAPHIC BRIEVITIES

—William Means of Galena, Illinois, celebrated his 100 birthday yesterday.

—The weather is fine in Iowa to-day and a heavy vote is being polled.

—At the Germans' celebration at Pittsburgh yesterday, two men were killed by falling from wagons.

—Spain is still complaining about the insults by the French to their King.

—There have been 10 deaths from small-pox on the Marysville plantation, Concordia parish, La.

—The second annual convention of the Church Temperance Society was held at Philadelphia yesterday.

—The first annual convention of the American street railroad cars met in Chicago to-day.

—Much scratching is being done by the Democrats in the Ohio election to-day.

—The students of the University at St. Petersburg are said to be the authors of the recent anti-Jewish riots in Russia.

—The expulsion of the English Salvation Army has been demanded by the citizens of Neuchâtel, Switzerland.

—A distilled wine and spirit exchange was opened in New York yesterday. Ex-Mayor A. Oakley Hall delivered the opening address.

—A negro at Madison, Florida, yesterday killed his brother by holding him around the neck while he shot him in the head.

—The Chicago Germans postponed until November 3d, the celebration of the establishment of the first German colony in America.

—Yellow fever has appeared at Brenon, Alabama. The trains pass the place without stopping. Seventeen cases and two deaths.

—A convention of Free-Thinkers will be held at Paine Hall in Boston, the 27th, 28th and 29th of next January, when the best speakers of that faith in the country will talk.

—A dead tree fell upon a tent containing nine railroad laborers, near Nettleton, Arkansas, last evening, killing three, and breaking the arm of another.

—The New York Court of Appeals has confirmed the judgment in the case of Edward Harvey for the murder of his sister-in-law and a death watch has been set.

—The confidence operator, G. C. Wheeler, has been arrested in Montreal. He is wanted on 30 different charges of fraud perpetrated in the Western States and will be extradited.

—Emily McLavish, a descendant of Chas. Carroll, of Carrollton, and a grand daughter of General Winfield Scott, has taken the black veil at Mount De Sales Convent, in Maryland.

—The Civil Service Commission has requested Postmaster-General Gresham, in appointing clerks in his department, to observe the quotas of the several States, and not to exceed the number to which each State is entitled.

—The New York Stock Exchange received the following notice from George W. Ballou & Co., yesterday: "We take pleasure in announcing our resumption, and desire to give notice that all unsettled claims against this house will be paid in full on presentation."

MISCELLANEOUS.

An Old Soldier's EXPERIENCE.

"Calvert, Texas, May 3, 1882.

"I wish to express my appreciation of the valuable qualities of

Ayer's Cherry Pectoral

as a cough remedy.

"While with Churchill's army, just before the battle of Vicksburg, I contracted a severe cold, which terminated in a dangerous cough. I found no relief till on our march we came to a country store, where, on asking for some remedy, I was urged to try AYER'S CHERRY PECTORAL.

"I did so, and was rapidly cured. Since then I have kept the PECTORAL constantly by me, for family use, and I have found it to be an invaluable remedy for throat and lung diseases.

J. W. WHITLEY."

Thousands of testimonials certify to the prompt cure of all bronchial and lung affections, by the use of AYER'S CHERRY PECTORAL. Being very palatable, the youngest children take it readily.

Prepared by

THE REV. GEO. H. THAYER, of Bourbon, Ind., says: "Both myself and wife owe our lives to Shilo's Consumption Cure." Sold by Osburn & Shoemaker.

NOTICES

Mr. Morton has sold his apple crop to Painter & Bakelless for \$175 a box.

Six cars of beef cattle have been shipped from Iron Point by Sibbold and Smith.

Key West cigars at Naaby's, 27 Commercial Row. Thermometer at 7, 9, 11, 1, 3-45, 57, 60, 61, 62.

The best of English bottled ale and porter at the Wine House, which can be sampled for 12 cents.

Eight bars of bullion from the Northern Belle and Mt. Diablo mines went below per Wells Fargo this morning.

There is no excuse for anybody to go ragged as long as the White House sells suits for less than a coat used to cost.

Under the management of White and Fitzgerald the Palace Hotel will continue to sustain its well earned reputation.

J. D. Pollard sells 16 ounces to the pound of beef, down weight, and that is the reason why people like to trade with him.

Besides all the staple articles, A. Lindley & Co. keep the most complete line of canned and bottled goods ever seen in Reno.

Every article sold by J. K. Everett is warranted to be as represented, and if they are not found so you can get your money back by returning the goods.

Those Singer improved sewing machines at Knowles & Balbridge's are for sale cheaper than the old style could be bought for two years ago.

Nothing but the best of everything in the dry goods line is kept by S. M. Jamison, and no charge is made for an examination of either price or quality.

The present cool weather has no effect upon the sale of George Becker's Pacific Brewery beer, for it is found to be as healthy in cool as in warm weather.

The regular meal hours at J. J. Beckers are from 11 o'clock until 2, when for a bit you can get a good clean lunch with a glass of Fredericksburg thrown in.

Don't forget the social at the Baptist Church to-morrow (Wednesday) evening at 7 o'clock. A good musical and literary entertainment has been arranged, and all for 10 cents.

When the present improvements shall be completed, the store of Osburn & Shoemaker will have the finest front of any business place in the town, and their extensive trade warrants the outlay.

Instead of turning out on a street parade as the Germans did in the East yesterday, F. Levy & Bro. were busy all day marking and putting up their recently received stock of Fall and Winter dress goods.

Wages in Colorado

A letter from the Denver & Rio Grande says: All conductors get \$100 per month, regular pay; brakemen \$80, and on mountains \$2 25 per day, and three brakemen to the train. Have two brakemen on all passenger trains, at \$60 per month. We have air brakes on all cars, freight as well as passenger. We have no running-over trains to set brakes at water-tanks and stations; but little way-freight to handle. Stations far apart and small. Nineteen of the towns on railroads in this country consist of a section house and wind-mill. Section foremen receive \$50 to \$75 per month. Laborers \$1 50 to \$2 a day. Engineers get \$3 per day for the first six months, after that \$4; and 40 cents per hour for all lay-outs and over time. We have good engines, and, in fact, good equipments throughout. Firemen get \$2 40 per day and 20 cents per hour over time. Operators get \$60 per month and upwards; dispatchers \$120, with three shifts, eight hours each.

How it Was Received in Carson

The Carson papers say the verdict in the Coombs case gives general satisfaction. The Appeal says: "The verdict in the Coombs case gives general satisfaction here, and the citizens of Ormsby county are glad that they have at last gotten some return for the money which the three trials cost. If men on the first jury had done their duty several thousands of dollars would have been saved. It is a well known fact that men went on the jury in the Coombs case by testifying that they had never expressed an opinion and were not biased. The next Grand Jury should see that they are made to realize that the law against perjury is still in force."

Fatal Accident.

Last evening when the west bound freight train, No. 6, was in the vicinity of Camp 23, a man named Charles Beeler, who was employed in taking care of beef cattle shipped on that train, fell from the train while in motion, and had his head cut entirely off. The deceased was taken to Truckee and his remains turned over to the Coroner.

Still Another Prize.

I. Fredrick, the jeweler, has on display in his show window, an elegant toilet set, which he offers for the best and most graceful rider at the coming ladies' tournament.

PROPELLED BY ELECTRICITY
A Satisfactory Trial Lasting Six Hours.

The propulsion of street cars by electricity was tested by the French Electrical Power Company in Paris on the 6th ultimo, with satisfactory results. The vehicle used was an ordinary horse car, and was propelled through the important thoroughfares for a distance of 30 miles. The trial lasted six hours, and, it is said, was not attended by any accident or the frightening of horses. The driver seems to have had no difficulty in bringing the car to a standstill within a second, whenever he desired. The vehicle was turned off from one set of tracks to another, across several yards of trackless ground, with admirable ease. The locomotion is effected by Faure-Sellon-Volekmar accumulators. The speed was nine and one-third miles on level ground and five and one-half miles on an ascent. This experiment, the first ever made over a long distance, is regarded as proving the practicability of electric cars. The estimated cost is one-half that of horse-cars. M. Ferdinand de Lesseps and several engineers and journalists witnessed the trial.

Renovates at Seattle.

Deacon Parkinson, writing from Seattle to the Carson Tribune, has noticed several Carson and Renosites as follows:

Captain Lyon is editor of the Post-Intelligencer, and makes a fine paper of it.

Mr. Smart Sr., has control of immense logging works at Port Susan, about 50 miles from Seattle, on Puget Sound, and is very much pleased with his present business and future outlook.

Dr. Smart is working into a good practice, and is much thought of in Seattle.

Alec Stewart has a fine drug store on Front street, and is doing a good business, wholesale and retail.

Ed. Powers is head bar-keeper in the "Pantheon" wine and billiard rooms and very highly thought of.

C. W. Parker, nephew to Hub, is busy in Kellogg & Co.'s drug store.

Asa Dawson is doing well in the insurance business, and is quite satisfied with his chances, present and future.

A Prospective Lawsuit.

C. W. Perry, Gallatin & Folsom's agent, who recently returned from an extended trip to the farming and stock valleys in the southwestern part of the State, informs a GAZETTE reporter that the citizens of Mason Valley are anticipating an extensive lawsuit with Kirman & Riekey, involving the right to Walker river water. The latter being located at the extreme upper end of the valley, are reported as having, during the past Summer, appropriated so much water, that for the past two months, none has passed Hook Mason's ranch, and for a much longer time not a drop has reached Walker Lake.

Mr. Perry says the Mason Valley people are making every effort to insure the complete success of their coming fall.

Here Had.

At the intersection of Commercial Row and Virginia street, there are three big mud puddles. Last evening two ladies, walking up Virginia street, desiring to cross over to Plaza and keep out of the mud, mistook the puddles for dry land. One of them gave a delicate little hop and came squarely down in puddle number one while the other circled about and waded through numbers two and three; so between the two they managed to sound the miniature lake in the deepest places. Not a "cuss word" was uttered, but by the way they shivered and sighed, it was quite evident that the muddy water was both cold and wet and found its way pretty well up.

All Are Invited.

Hammersmith is keeping open house all day, the week around, at the Wine House barbershop. Anybody that drops in for a wash at the marble stand that he keeps for his friends meets the same courteous treatment as if he spent two dollars. He gets hot and cold water all at the same price, with a clean towel thrown in. A fresh brush and a new comb are at the disposal of those who have read the Scripture which says cleanliness is next to Godliness. All of Nick's razors are as sharp as a politician's nose and as smooth as his tongue. He wants to see you, and thinks if you give him a trial you will be very much pleased.

A Magnificent Estate.

It is rumored that Senator Fair has purchased a magnificent estate in Bohemia, says the San Francisco Exchange. This is of course for the use of the Senator's friends on the Nevada and California press. Arthur McEwen will be head steward, Sam Davis, private secretary, and Tom Flynn, Lord Chamberlain. These gentlemen have never lost an opportunity to show how highly they esteemed the Senator, and now their reward is at hand.

Will Winter in Washington.

A Washington dispatch says Senator William M. Stewart of Nevada will join his wife and daughter here within a few weeks, and remain during the Winter. Two married daughters are also to pass the Winter with the family.

PERSONALS.

A. A. Evans left for Susanville this morning.

Superintendent Jerry Whited of the C. P. is in town to-day.

General Kittrell left this morning for Modesto, Cal., on legal business.

N. Levy, a Winnemucca merchant, was a passenger from below to-day.

Judge Boardman is confined to his bed by a virulent attack of erysipelas.

Mrs. Frank Bell came over from Carson last evening on a visit to Reno friends.

Dick Sides left this morning to take charge of Theodore Winter's stock ranch on Snake Creek.

J. L. Goodman, General Ticket Agent of the Central Pacific Railroad, was a passenger for the East to-day.

Mr. Blakeslee and family of the Humboldt House were passengers from below on the way home this morning.

Rev. L. Ewing, who was selected by the Methodist Conference to disperse the gospel to the wicked citizens of Truckee, for the next year, arrived from the west to-day.

Humboldt Items.

The Silver State of the 8th inst. contains the following:

The Winnemucca Jockey Club has decided to give four days races over the course here this Fall. They offer over \$1,500 in purses, and there will undoubtedly be several interesting speed contests.

A four-pound chunk of ore from the Humboldt Queen mine, in Sacramento District, can be seen at this office. It is a magnificent specimen, containing black sulphurets of silver, horn silver and chloride, and it is estimated by experts to contain at the rate of about \$400 per ton in silver. The mine which produced it is proving to be one of the very best in the country.

Walter Schmidt brought some specimens of salt to town last Saturday from the Desert Crystal Salt Works, at White Plains. The specimens, which were taken from the vats where the crystals are dried, are inches thick, and are composed of beautiful crystals, cemented together into a compact mass. The salt, which is crystallized by evaporation, is chemically pure, and when ground can not be excelled for table, dairy and pickling purposes.

The Yellow Fever.

A Tucson dispatch of the 6th instant says: Advice from Hermosillo are that the cool weather of the past two days has abated the yellow fever considerably. There have been about 6,000 cases to date and 550 deaths. There were 20 deaths in the past 24 hours and five deaths at Guaymas in the past 48 hours, three of which were relapses. There are no cases in Arizona except those that came from Mexico. There have been ten or twelve such cases, but people here have not taken the fever.

United States Jurors.

The following gentlemen have been summoned by U. S. Marshal Corbett to serve as jurors in the U. S. District Court, at Carson, on the 12th: J. H. Hoover, O. K. Stampley, R. LaValliere, M. B. Augustine, Geo. W. Chedie, C. W. Friend, J. C. Hagerman, Geo. C. Thaxter, Marion Little, Geo. W. Shaw, A. J. Beales, J. T. Banning, W. H. Blauvelt, B. G. Clow, D. G. Corbett, Lawrence Gilman, A. C. Pratt, J. E. Cheney, C. B. Hoffman, E. R. Elrod, E. G. Winnie.

A Creditable Job.

The Virginia and Truckee engine, "Nevada," which has been remodeled for the Canadian Pacific Company, and called the "Lytton," arrived from Carson to-day on the way north, in charge of S. J. Benis, foreman on the V. & T. local. The "Lytton" looks in all respects like an entirely new engine, and is said to be fully as good as the day she originally came out of the shop.

The Evans Case.

The matter of appointing a guardian for Allan B. Evans is still occupying the attention of the Superior Court of Lassen county. A letter received from Susanville last night, says the case will most likely drag along all this week. It is being very hotly contested on both sides. The petitioners are not yet through with their side of the case.

After the Timber Thieves.

C. H. Lord, postmaster at Tucson, A. T., late of the firm of Lord & Williams, indicted for cutting government timber, nearly two years ago, has been found guilty. The punishment is one year in the penitentiary and \$1,000 fine. A stay of proceedings was had. An effort will be made to secure a new trial.

Mine Attached.

The Eureka Tunnel, in the Eureka mining district, has been sued, attached and shut down; and a local paper claims that unreasonably large salaries, careless and inefficient management are the causes of the collapse.

Good Work.

One of the eighty ton C. P. locomotives, brought a train of twenty-one loaded freight cars over the Sierras yesterday. It is said the load was easily hauled.

THE WHITE HOUSE.
